ISSUE NO. 74

BRITAIN FOR THE BRITISH!

DESPITE rising unemployment and an acute housing crisis, immigration continues. Nowadays every reasonable person says "Immigration must stop" but immigration goes on and on. Last year another 53,000 immigrants flooded into Britain.

Coloured immigrants were first encouraged to come to our country in the late 1940's and early 1950's by Labour and Conservative governments.

Corrupt politicians used immigrants to swell the labour pool in order to depress wage levels and to curb the bargaining power of trade unions.

NIGHTMARE

Recently released Cabinet papers for the years 1954 and 1955 reveal that the Tory Government knew what the consequences of large-scale coloured immigration would be. On March 9th the then Home Secretary, Sir David Maxwell Fyfe, warned of an "impending nightmare" unless something was done "to restrict excessive numbers of West Indians" settling in Britain.

A Cabinet minute of November 1955 noted: "If immigration from the colonies and for that matter from India and Pakistan is allowed to continue unchecked there is a real danger that there will be a significant change in the racial character of the British people."

COWARDICE

The Cabinet discussed legislation to end coloured immigration, but because of sheer political cowardice nothing was ever done . . . and the influx has continued to this day.

That "impending nightmare" predicted 30 years ago has now arrived. We see it in the breakdown of education and welfare services in immigrant inundated areas. We see it reflected in rising levels of unemployment, homelessness and crime. And we see it, most clearly of all, in the wave of horrific and murderous race riots that afflict our major cities.

RETURN

The time has come to put an end to the multi-racial nightmare. There is only one party that calls for a halt to immigration. There is only one party that is pledged to return all coloured immigrants to countries of their own racial type. There is only one party that can save Britain.

That party is the National Front. IT IS OUR ONLY HOPE.

More immigration means less homes and jobs for British people.

One of the few things that will increase will be the number of race riots.

IMMIGRATION BEGINS LIKE THIS...

1950's: An immigrant boat-train pulls in at Waterloo Station, London.

AND RESULTS IN THIS...

1980's: A race riot in Brixton. Race riots will become a permanent feature of life in our inner-cities until all immigrants are repatriated.

BLACK BIRTHS SOAR

STOPPING immigration alone will not solve Britain's racial crisis. The numbers of immigrants already here, and the growing black birth-rate, means that a policy of compulsory repatriation is essential if we are to win back a Britain for the British.

A survey recently carried out by the Office of Population Censuses and Surveys revealed that Pakistani and Bangladeshi families are larger than those of any other ethnic group. Some 40 per-cent of Pakistani and Bangladeshi households surveyed had four or more dependant children under the age of 19.

The figures also show that over a quarter of White households

comprised couples with no children at all. This is considerably more than families with a non-White head.

Previous Population Censuses have revealed that every 1000 White women have 82 babies a year; every 1000 West Indian women have 108 babies a year and every 1000 Asian women have 200 babies a year. This has resulted in a situation where more than half the births in four London boroughs last year were to coloured immigrant mothers.

TREND

This trend is being closely matched in many of Britain's major towns and cities. In only a few years time the majority of babies born in places like Birmingham, Blackburn, Bradford, Leicester, Slough and Wolverhampton will be black.

The percentage of coloured births today determines the percentage of the population that will be coloured in the years to come.

WHITE MINORITY

The implications of the soaring black birthrate are obvious. The time will come, perhaps in the not too distant future, when the British people will end up a minority in many of their own towns and cities.

There is only one way to avert this catastrophe. That is by implementing a programme of compulsory, financially-assisted repatriation.

There is still time to save our nation. Give yourself, your family and your country a chance. JOIN THE NATIONAL FRONT.

EDITORIAL

Racial Hatred

IF THE National Front is known for anything, then it is known for its stance on the immigration issue.

Friend and foe alike know that we demand a halt to immigration and that we seek the return of all coloured immigrants to their lands of ethnic origin.

However, it appears that many of our opponents have still not fully grasped and understood our racialism.

With monotonous regularity they accuse us of preaching racial hatred and of promoting racial violence.

Nothing could be further from the truth.

The National Front does not preach racial hatred, nor does it promote racial violence.

The National Front is opposed to coloured immigration – not only because it means fewer jobs and homes for British people – but because it will bring about a permanent and drastic change in the composition of the British people.

As racialists we recognise that the great achievements and unique character of the British people are due to its racial composition. We want to protect that composition and therefore reject multi-racialism completely.

Our racialism is not derived from a negative hatred of other races, but from a positive love, pride and belief in the qualities, character and future of our own people.

We are opposed to coloured immigration; but that does not mean that we hate coloured immigrants. Nor do we blame them for the situation that has arisen in our country.

The people who we do blame are those who created the problem in the first place. Our anger and hatred is solely directed towards the corrupt politicians of the Tory, Labour and Alliance parties.

Not only are we opposed to racial hatred, we also condemn racial violence. We understand the anger and frustration felt by many British people over the immigration issue, but we urge them to channel that anger into constructive and legitimate political and cultural activity, and not into attacks upon members of the immigrant community and their property. Not only is racial violence morally indefensible, it is also counter-productive as it only serves to criminalise the racialist cause.

Back in 1967 the National Front produced its first ever leaflet on the subject of mass coloured immigration. That leaflet "Racial Hatred is a Sign of Emotional Immaturity" – urged Britons not to direct hatred against immigrants but towards the politicians who have betrayed our nation. It argued that the only way we are going to win back a Britain for the British is by engaging in constructive and constitutional political action.

That approach remains National Front policy, and will be the unaltered policy of this paper.

A Warning To The Left

THE National Front is a party that passionately believes in the right of free speech for everyone, regardless of their political opinions. Unfortunately our commitment to free speech is not shared by our opponents of the extreme left.

On page 5 of this issue of *NF News* we bring you a report of the battle of Stockport. There NF members on a lawful NF activity were attacked by several hundred Reds, some armed with hammers and axes.

It is obvious that the extreme opponents of British Nationalism are being driven frantic by their inability to stop the NF through smears and are turning more and more to open violence.

The National Front will never surrender to Red terrorism. We will continue to hold our activities where we want, when we want.

Opponents of the NF who conduct their opposition in a lawful and peaceful manner have nothing to fear from us. But those who resort to violence and intimidation can expect – as several Reds at Stockport discovered – a bloody retribution.

DISCLAIMER

In Issue No. 71 of *NF News* there appeared an article by Ted Budden entitled 'What are they doing to our country?'

The contents of that article were the personal opinions of Mr. Budden. They are not the views of *NF News* or the National Front.

— NF Publicity Department.

SOMETHING SMELLS DOWN ON THE FARM

FRAUD SQUAD detectives are investigating the finances of the Broadwater Farm Youth Association. The move follows allegations against the club's controversial Jamaican-born leader, Dolly Kiffin.

Broadwater Farm in Tottenham, North London, was the scene of Britain's worst-ever race riot in October. The orgy of violence and destruction culminated in PC Keith Blacklock being hacked to death by machete-wielding rioters.

Following the riot Dolly Kiffin became a figure of extreme controversy when she refused to condemn the murder of PC Blacklock. Kiffin is a powerful figure on the estate. Local police have dubbed her 'The Godmother'. A local resident recently commented: "Dolly Kiffin runs Broadwater Farm like city bosses used to run Chicago and New York."

Dolly Kiffin set up the Broadwater Farm Youth Association four years ago. Since then the Youth Association has received a total of £230,000 in grants from the Department of the Environment, the GLC and Haringey Council.

Dolly Kiffin.

Two officers from Scotland Yard's Public Corruption Unit recently visited Jamaica to investigate claims that Kiffin has corruptly used this public money for her own private use.

In particular they were probing allegations that she purchased a

bungalow in Jamaica with BFYA money. According to records in the Jamaican Lands department, Mrs Kiffin bought her bungalow last year. She paid £13,000 in cash. Records show that the money came from England in two cash payments.

Not bad for a person who only a year earlier was receiving Supplementary Benefit!

Evidence has also been unearthed that Kiffin has opened back accounts in Jamaica with large cash sums, and that a new tarmac road and wall outside her new Jamaican home has been paid for out of Youth Association funds.

If these allegations against Dolly Kiffin are proved she will be the latest in a long line of immigrants who have been convicted of corruptly using public money. Each year millions of pounds are given to immigrant groups or are spent in immigrant areas. The aim of this policy is to 'buy-off' the blacks and to dissuade them from rioting and looting.

Recent events have shown that this policy has failed. Such money would be much better spent in financing what is the only solution to Britain's race problem: the resettlement of all coloured immigrants and their descendants in their lands of ethnic origin.

TAKING IT FROM THE POOR...

4 MILLION British people are going to find themselves worse off from April 1988. And these 4 million people are the ones who can least afford it.

They are Britain's poor. They include old-age pensioners, the unemployed and the low paid. These are the people who are going to lose the most from the biggest change in the social security system for more than 40 years.

The changes, revealed in the recently released White Paper, are due to come into effect in April 1988.

The biggest losers will be old-age pensioners, the single low-paid and childless couples on the dole. According to the Government's own figures, over 2 million pensioners, including 350,000 people over the age of 80, will be worse off. Some 120,000 will lose £5 or more a week.

HARD HIT

Among the unemployed without children, some 860,000 will be particularly hard hit. In some cases they stand to lose over £13 a week.

Some people will be gaining from the changes. Unemployed people with children, the low-paid with families and single parents will be, on average, a phenomenal £2 a week better off!

But this social security review is mainly all about cuts...

* CUT are the single payments which help the needy.

* CUT are the heating allowances which help pensioners and those living in cold and damp accommodation.

* CUT are payments to people who are disabled or suffer from serious ill-health.

* CUT are the amounts paid in housing benefits. Now everybody – no matter how poor – will have to pay 20% of their rates.

* CUT are the amounts of benefit paid to the young. Unemployed single people under 25 will be receiving £5.50 less a week.

For 4 million people this White Paper is a document which heralds doom, debt and disaster. It is difficult enough to make ends meet on present levels of benefit. When these new cuts are implemented life will become impossible. Many people will get behind with their electricity and gas payments and will end up having their supplies disconnected. Tenants will be evicted for non-payment of rent and rates.

BLEAK FUTURE

Since the Tories came to power their policies have been responsible for throwing 2 million people out of work. Now they are condemning these people to a bleak future of

Fowler's White Paper condemns millions of Britons to a life of poverty and degradation.

poverty and degradation. These social security proposals are also a kick in the teeth to Britain's pensioners, many of whom saw Britain through two world wars. Is this the reward they get for their sacrifice?

The Tories claim that Britain cannot afford the present welfare state. But one thing is certain. Britain's poor can't afford the Tories.

...GIVING IT TO THE RICH

THIS social security review is the latest and most vicious attack by the Tories on Britain's poor. In the past six years the Thatcher Government has already cut benefits by nearly ten thousand million pounds. That is enough to give every pensioner an extra £76 per week, or every unemployed person an extra £54 per

week, for a whole year.

Yet at the same time, the Tories have given £12,780 in tax handouts every year since 1979 to people who earn over £50,000 a year.

Only last summer they awarded fat salary increases to the privileged few at the top of the social ladder. Britain's top civil servant was

awarded a staggering 48 per-cent pay rise which took his salary to a total of £75,000 a year. The Lord Chief Justice received an £11,000 a year increase. And the Chiefs of Staff of the armed forces received pay rises of nearly £24,000, increasing their salaries from £51,250 to £75,000.

The Truth Slips Out

WHO SAID the following of the recent race riots in Handsworth, Brixton and elsewhere:

"... one riot involved two rapes – and I for one am particularly horrified at multiple rapes and sometimes one cannot exclude the possibility of a racial motive in these outbreaks of detestable violence".

Were those the words written by former *NF News* editor, Martin Wingfield, that earned him a three month stay in Pentonville Prison? Or was that quote taken from

Bulldog, whose former editor, Joe Pearce, is now serving a 12 month sentence in Sheerness Prison for 'inciting racial hatred'?

No! Those words were included in an advance copy of a speech by the Lord Chancellor, Lord Hailsham. The speech was issued by Conservative Central Office. Yet before the speech was actually made the advance text was taken back and the reference to a racial motive deleted.

Why? Your guess is as good as ours. But by stating the obvious fact that

there is a racial motive behind the multiple raping of White women by marauding gangs of Blacks, Lord Hailsham is liable, in theory at least, to be prosecuted under the Race Relations Act for 'inciting racial hatred'.

Lord Hailsham should count his blessings that he is Britain's No. 1 law man and not an editor of an NF publication.

Otherwise he might be facing the prospect of languishing for up to 2 years in a prison cell.

The National Front and Ulster

**Smash
The IRA!**

ULSTER is British. Recognition of this fact — and a determination to defend it — forms the basis of NF policy in Ulster. With this policy of dedication to victory (and not of searching for the best formula for defeat), the IRA's violence and murder will come to an end.

The National Front will:

- * Allow the Security Forces to treat the campaign against the IRA/INLA as an operation of war, subject to the rules of war, and to wipe them out as quickly as possible.

- * Make Republican terrorism an offence punishable by death.

- * Ban Sinn Féin and the Irish Republican Socialist Party. Persuade those who sympathise with the Irish Republic to move south and take up residence in Ireland.

- * Seal the border to prevent terrorists escaping to the Republic or using it as a launching pad for attacks on Ulster people.

- * Start to lay the foundations of permanent social unity in Ulster by making it illegal to use any educational institution to breed Republican sentiment.

COLERAINE

The National Front supports the Ulster Defence Regiment. We envisage a much more robust assignment for the UDR, which would allow those members of the Royal Ulster Constabulary (RUC) presently engaged in a quasi-military role — to which they are unsuited — to return to more conventional policing.

The NF is opposed to the Supergrass System. We would introduce a National Legal Service to remove the onerous financial expedient from the legal system. We would also segregate all Loyalist PoW's.

**Local
Government**

WE BELIEVE that open and accountable Government is the best way of preserving the freedom and rights of every Briton. We are opposed to the local government reforms of 1973 which stops locally-elected representatives carrying-out their responsibilities in all but a few menial tasks — and replaces them with Government-appointed 'administrators'.

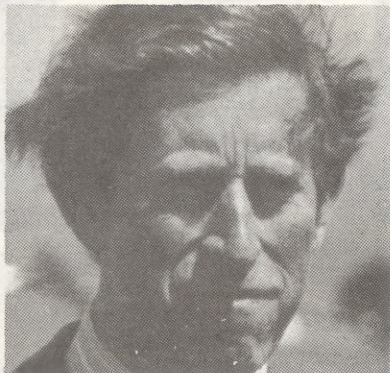

We believe that local government areas should be re-centred in traditional counties and have the same autonomy and control over expenditure on housing, health, education and other essential public services as local authorities in the rest of the UK.

**We
Want Work**

THE NATIONAL FRONT will get Ulster back to work. We will ban the export of capital by returning to Crown authority the right to

DI

CHAS

issue credit and spend money into circulation, and to cancel that part of the National Debt accrued through interest charges.

We will establish an assured home market for our own manufacturing and processing industries by banning foreign imports.

SCANDAL

We recognise the importance of shipbuilding particularly to Belfast's economy. We consider it a scandal that a vulnerable island Nation is prepared to abandon an industry that is crucial to its defence.

However, the NF does not believe that widespread nationalisation would solve Ulster's problems. We advocate workers' co-operatives, where, ownership of industry is extended to the whole workforce. Workers' co-ops also generate quality work and job satisfaction.

In cases where workers' co-ops are not possible, the workforce will be offered profit-sharing and representation to compensate for the loss of incentive which comes from being deprived from a share in ownership.

IRELAND

The NF advocates that financial aid to Harland & Wolff is increased to enable it to invest in new technology and in the specialist skills it needs to regain its stature as the leading employer in Belfast.

The National Front is opposed to the privatisation of Shorts Air-

craft builders in Belfast. Private and multi-national ownership, which is purely motivated by the principle of profit and greed, will not secure employment for the workforce — nor ensure that the technologically-advanced aspects of aero-engineering that have been pioneered within Shorts and financed by the tax-payer — will be retained in Belfast. There is also no guarantee that existing and agreed employment practices would continue.

Education

EQUALITY of opportunity in education — and the provision of facilities to fully develop the intellectual ability and practical

THATCHER

skills of our young people — is of fundamental importance. This cannot be achieved through Comprehensive schooling as parental choice is reduced and individual performance is stifled.

Schools should accept pupils purely on the basis of merit, and regardless of family circumstances.

The NF will eradicate preferential treatment for minorities in the allocation of funds or in the development of the curriculum.

Teachers should be better paid, but the teaching profession should earn the respect and confidence of parents and pupils alike by submitting themselves to regular assessment.

Letter From Belfast

Dear National Front News,

I write to say how disgusted I am about the Anglo-Irish Agreement, and the appalling treatment we Loyalists have received from Thatcher's government.

It's great to see so many like-minded Loyalists out on the streets. However, I don't think that holding rallies and marches is enough. We need to do more!

The National Front seems to be the only UK organisation that supports Ulster. But I can't help thinking that it's our fault for not putting across the facts. How are our fellow Britons going to understand what is really going on in Ulster if we Loyalists don't tell them?

The IRA are winning the war here, simply because they have a very professional propaganda machine, which has been in operation for years.

I believe that it's not too late to launch a massive publicity campaign in the UK. We should publish a weekly or bi-weekly paper and distribute thousands of leaflets giving the Loyalist viewpoint.

We can no longer afford to be complacent. It is now time for the people of Ulster to unite and fight. I sincerely hope that many will answer that call!

Yours faithfully,

Margaret Jenkinson (Miss),
Belfast,
Ulster.

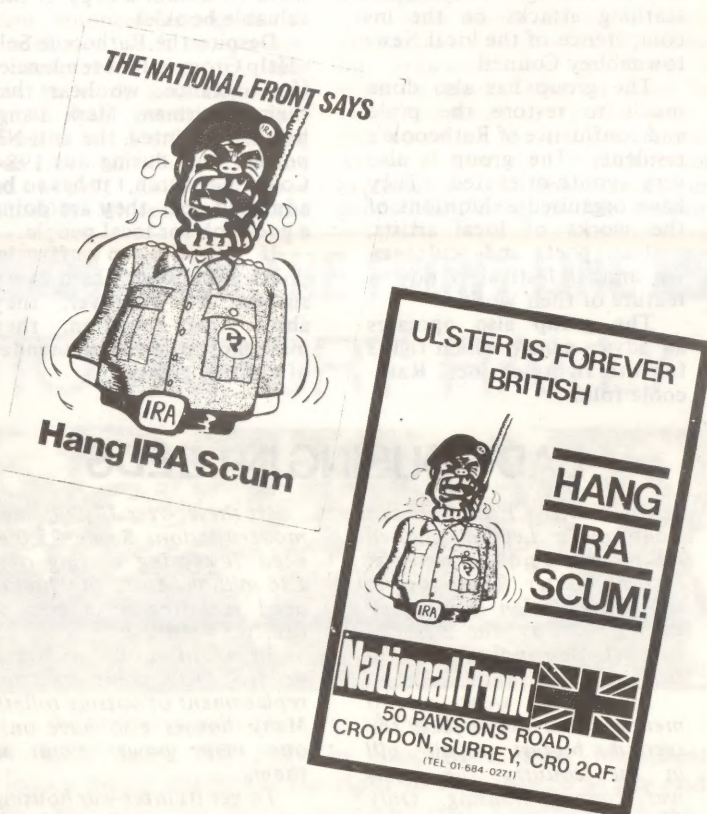

Victory To Ulster

HUNDREDS OF THOUSANDS of anti-IRA leaflets and posters have been distributed over the last month. All over the country people have been reading of the NF's support for the Ulster Loyalists. All over the country people have seen that Ulster's fight is Britain's fight.

Even so, our current anti-IRA campaign runs until the end of March. So there's plenty of time for all NF units to distribute more pro-Ulster literature.

Patriotic individuals are also encouraged to take our leaflets and posters and distribute them to their work-mates or around their area.

Both the poster and leaflet are printed in dynamic red, white and black. To order, just fill out the handy coupon printed below.

FIGHT BACK TODAY...

I WOULD LIKE to support the National Front's campaign to keep Ulster British. Please send me thousand leaflets (cost £5 plus £2 postage per thousand) and posters (cost £1 plus 20p postage for 20).

NAME
ADDRESS

I also enclose a donation of £ . . . p to help the National Front fight back for Britain!

Please make all Cheques/P.O.'s payable to "Nationalist Books" and send them to: Nationalist Books, 50 Pawsons Road, Croydon, Surrey, CR0 2QF. (Tel: 01-684-0271).

COMMUNITY ACTION

COMMUNITY ACTION is a new addition to *National Front News*. Hopefully — and with your support — it will become a regular and major feature of the paper.

Community Action seeks to help the National Front sink local community roots. Indeed, we see this as a very small step on the road to establishing a whole series of Nationalist Advice Centres throughout the UK.

We want to expose local council corruption and incompetence, fight closures of local hospitals, factories and schools, and campaign for decent housing and social services for our people. We also hope to carry advice on what you are entitled to in the way of supplementary benefit, health benefits, housing benefits, etc.

If any NF member or supporter thinks that Community Action should focus on their area, then simply send us your community news plus any local press-cuttings. Members of the public who want us to take up campaigns on their behalf, should use the special coupon, printed below. (Please include a stamped, self-addressed envelope, for administrative purposes.)

SELF HELP OR HELPLESS

THE RATHCOOLE SELF HELP GROUP is an excellent local community organisation that operates from 28A, The Diamond, Rathcoole, Newtownabbey, Co. Antrim, Ulster. Tel: Whiteabbey (0231) 60322.

They produce a hard-hitting local newspaper called *Bahd News*. This is full of community news and generally carries scathing attacks on the incompetence of the local Newtownabbey Council.

The group has also done much to restore the pride and confidence of Rathcoole's residents. The group is also very youth-orientated. They have organised exhibitions of the works of local artists, writers, poets and sculptors. An annual festival is now a feature of their work.

The group also operates an advice centre which fights for the rights of local Rathcoole folk.

They have also produced a very good booklet, entitled *Self-Help or Helpless*. This provides a record of past and present activities of the group — and shows how it developed from a series of impromptu meetings into its present form. Community Action recommends anybody who is involved in local community work to obtain a copy of this valuable booklet.

Despite the Rathcoole Self-Help Group's Red-tendencies (for instance, we hear that their Chairman, Mark Langhammer, printed the anti-NF posters seen during our 1984 Coleraine march,) it has to be admitted that they are doing a good job for local people.

If they keep off the politics we wish them every success. If, however, they abuse their position, they may end up losing all manner of Council grants.

BAD HOUSING IN LEEDS

MAINTENANCE problems in traditional Leeds council houses are among the worst in the country. That was the shock conclusion of a survey carried out by the Association of Metropolitan Authorities.

Indeed, it went on to mention that Leeds faces the second biggest repair bill in the country for inter-war council housing. Only Birmingham is worse off.

The report found that of the 94,000 council homes in Leeds, over 25,000 were built between the wars.

Of these, over 17,000 need modernisation. Some 25,000 need re-roofing costing over £36 million. And 7,000 homes need re-wiring at a cost of nearly £4 million.

In addition, £5 million is needed to complete the replacement of outside toilets. Many houses also have only one main power point in them.

To get its inter-war housing up to modern standards, Leeds needs to spend about £276m. At present rates that would mean a wait for local residents of up to 40 years!

CLAIM NOW!

ARE YOU claiming all that you are entitled to from the DHSS, social services, and local services?

Are you a householder on supplementary benefit? If so, you may be entitled to claim various grants for the home such as:

* Furniture (including tables, chairs, beds),

* Household equipment (irons, cookers, fires, curtains and bedding),

* Decorating costs (paper, paint),

* Floorcovering (including cost of delivery and installation).

CLAIM NOW!

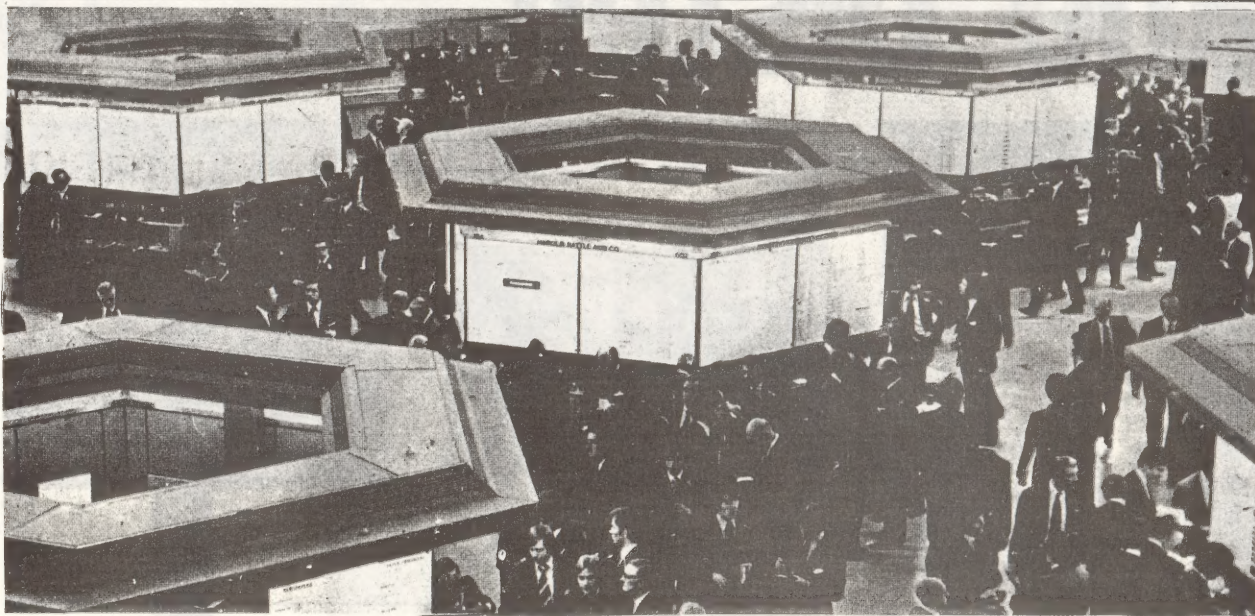

HAVE you got a gripe about your local council? Is your local factory, hospital or school being closed down? Do you live in bad housing conditions? Then contact Community Action and we'll fight on your behalf. Write to: Community Action, P.O. Box 41, Norwich, Norfolk, NR3 2AH. (Please enclose a stamped self-addressed envelope for administrative purposes.)

My gripe is

NAME

ADDRESS

CLOSE DOWN THE CITY CASINO!

The Stock Exchange — where parasites make fortunes.

THE CITY of London is more than just the haunt of gents in pinstripes carrying brollies and doing mysterious things with stocks and shares. Recent events have shown it to be a cesspit of crime, corruption and cashing-in on easy money.

The City of London is a plutocrats' Monte Carlo where fortunes are won and lost in an afternoon; a crooked casino where the winners are foreign multinational corporations, shady 'businessmen' and City-slicker Stock Exchange gamblers.

The losers are tens of thousands of British working people thrown on the dole when their productive workplaces go bust on the turn of a share certificate or the whim of a stockbroker.

Ordinary workers and small businessmen rightly expect to earn a fair day's pay for a fair day's work. They expect that what they get out of their job at least broadly reflects what they put into it. They expect that in return for the goods and services they create or sell they will get cash in their pocket or bank account in proportion. That is right and fair and the foundation of a sound economy.

BOOKIES SHOP

On the Stock Market things are very different. There you can simply make money out of money without doing any work at all, beyond a couple of phone calls. To make a fortune, just buy shares when they are cheap and sell them when they have gone up in price. It is just like a bookies shop — you back a share issue instead of a horse and if it comes in you cash in. The difference is that people don't make millions out of betting shops and they don't control the British economy!

Nor are the races so blatantly fixed: on the Stock Exchange, the cunning punter gets a tip about a forthcoming takeover bid, and buys shares in the target company before news of the bid leaks and their prices rocket. Once the takeover bid is in, our City punter flogs his shares and counts his winnings.

Or, if he wants to play in the "big league", our City punter can float "junk bonds" to his fellow sharks. These are shares in an asset-stripping operation. Once enough have been sold, the ringleader puts in a takeover bid for a reputable company. Win or lose, this puts up the value of the shares in the target company they've bought, which they can sell off before announcing the bid has been abandoned.

CASHING IN

If they win, the sharks' consortium carves up their victim, selling off the profitable bits and closing down the rest, turning a long-established and viable British company into ready cash to divide up among themselves — and productive British workers into more dole-queue statistics. A fate hanging over Allied-Lyons and Distillers' workers, among others, as the City sharks battle over shares in their companies.

All this is making money out of nothing: the sharks put nothing into the businesses in whose shares they wheel and deal, and take millions out. This is inherently corrupt, unfair, and harmful to the British economy.

But City corruption can get much worse than that. The Johnson-Matthey Bank scandal rumbles on, involving bribes and swindling centred on immigrant millionaires (and Tory Party backers) Abdul Shiamji (who owned Wembley Stadium) and Mahmud Sipra; as well as incompetence on the part of the Bank of England, which is supposed to "regulate" the City casino.

JMB lent vast chunks of its capital to Spira and falsified the extent of its loans. The full sordid story of bribery, corruption, and lying has yet to be unravelled, but already it is

clear that the City is not only corrupt in itself, but is run corruptly by corrupt crooks, many of them foreign.

While the City sharks like Shamji make millions, the little minnows, the stock analysts and dealers who do their dirty work, are cashing in too. In a typical deal recently, a 28 year-old analyst was lured from a £35,000 a year job with one City stockbroking firm to an American firm offering £130,000 a year. Dealers can earn £50,000 basic plus bonuses of £200,000 a year for leading their masters to rich pickings on the Exchange floor. In the Eurobond field salaries have gone up 75-100% in the last two years.

While skilled British workers struggle to bring up families on the dole, the head of "syndications, sales and trading" for a City merchant bank — a glorified bookies' runner — earns £425,000 a year. All for making nothing — except money.

TAKEOVER

It stinks. And it will stink a lot worse after October 27th, when the City is "de-regulated". The casino will be opened up to giant foreign financial institutions and international financiers like the Rothschilds and Warburgs. Already, foreign financiers have spent over £1 billion buying up the best stockbroking firms, ready to take over the City. The road to even more fiddles and the total takeover of British industry by foreign financiers' lies open.

The only way to clean up the City cesspit, end the corruption, the foreign takeovers of British industry, the asset-stripping and the redundancies is to close down the Stock Exchange and ban anyone from owning shares in any business for which he or she does not work. British industry and commerce should be owned and controlled by British workers and small businessmen, not spivs, sharks, foreigners and crooks.

THE OWNERSHIP OF INDUSTRY

WHERE WE STAND

THE NATIONAL FRONT is neither Capitalist nor Marxist. We believe in the principle of wide-spread private ownership of industry, commerce and agriculture. Marxism denies ownership to all and confines control to a small group of party bureaucrats. Capitalism denies ownership to the majority of the population and confines effective control to a small group of capitalists. Only our system of well distributed property extends ownership and control to the vast majority of people and prevents massive accumulations of industrial, agricultural and commercial wealth and power in the hands of a small number of people.

We will encourage small scale ownership in all sections of the economy where it is economically possible and existing small businesses will be sustained by a system of differential taxation. Large concerns that can economically be split into small units will be divided by operation of law and compensation will be payable to the small investor. Those concerns which have to be operated on a large scale will initially be transformed into companies in which the bulk of share ownership is held by the

employees — the shares being purchased with the assistance of tax concessions. Ultimately they would be transformed into producers' co-operatives. The small investor will receive full compensation. Thus ownership and control of a business by people who do not work in that business will be eliminated. Foreign ownership of British industry, agriculture or commerce will be forbidden by law and it would be illegal to invest abroad the profits of British industry.

We envisage an economy comprising small and medium sized businesses and farms owned by individuals and partnerships; enterprises that are necessarily large which are owned and controlled by employee shareholders in different amounts; producers' co-operatives in which the profits would be distributed among the employees; and voluntary chain wholesalers owned by individual retailers. Nationalised industries would exist in those areas of the economy in which the necessary monopoly position, level of fixed costs or importance to national security or the economy, make public ownership necessary or desirable.

THE THREAT OF THE MULTINATIONALS

FIVE HUNDRED multinational corporations — many of them linked together by reciprocal shareholdings and shadowy 'holding companies' — control over half of the World's trade. This vast concentration of economic power threatens Britain's economic, national and racial freedom.

It enables the multinationals to extort exorbitant prices for vital import commodities, to undercut British workers in manufactured goods we can produce here, to cheat our country of taxes, and to swamp our land with cheap coloured labour.

The extent of multinational control, especially of tropical crops we import to this country is enormous. For example: 15 multinationals own 85% of the cotton traded in the World; 5 own 75% of the World's cocoa crop; 6 control 85% of global tobacco sales. Over two thirds of the World's supply of agricultural fertilizer comes from sixteen multinationals, and over three-quarters of the global agricultural machinery is sold by just three.

Many multinationals earn profits

greater than the gross national products of most of the World's countries. But their subsidiaries in Britain and other Western countries pay very little of these ill-gotten gains in tax to their hosts. They dodge our taxes by making sure that their subsidiaries in low-tax countries register nearly all the profits made by the multinational as a whole whilst British and other high-tax country subsidiaries "manage to make" hardly any profit, or even a loss, and so are not liable for much tax.

In effect, the international plutocrats shift their lolly from one hand within the reach of the Western taxman to the other, out of that reach. Our example, the fifteen cotton multinationals, fiddled their way out of an estimated £250 million in tax in the late 1970's in this way.

But it is in the field of manufactured goods that the multinationals hit the British worker hardest. For, unlike national firms tied to their home country, multinationals can move their assembly plants, and hence they can use cheap coloured labour to undercut our workers, flooding our home market with cheap goods and putting our workers on the dole.

CHEAP LABOUR

This is just what is happening. More and more of the routine assembly work in industries like electronics is being done in 'Free Trade Zones' provided by coffee-coloured 'Third World' countries in the Far East, Latin America, Asia and Africa. These 'Zones' provide incentives and low taxes to multinationals setting up plants there provided they export all they produce. They also provide a dirt-cheap, mainly female workforce, prepared to work long hours, in appalling conditions, for low pay at boring jobs.

For example the women in a typical factory in the Bataan Free Zone in the Philippines work from 6a.m. to 10p.m. six days a week, and from 6a.m. to 6p.m. on Sundays, sometimes being forced to work three days and two nights running by being locked in their factory. Wages such as £13 a month in Sri Lanka are common. Trade Unions are generally illegal.

Of course, White workers would never stand for this. But as one Dunlop plant manager in the Philippines said of his workforce: "Their mental age is probably lower than in Europe". So the multinationals are cashing in. For example, silicon wafers are being made in the U.S.,

air-freighted to 'Free Trade Zones' in Malaysia and the Philippines for bonding, and then flown back to America for assembly in automated factories. The cheap sweat-shops of the Orient which ruined the Lancashire textile mills in the twenties and thirties are now ruining all the manufacturing industries of the West, in the service of the profits of the multinationals.

Even bigger profits can be made if the cheap coloured labour is actually moved into the consumer countries. So multinationals are encouraging coloured immigration into White countries and promoting multi-racialism to keep their cheap labour here.

In Britain, coloured immigrants in certain industries, such as textiles, have so undercut Whites by their willingness to work long hours for low pay in bad conditions that multinationals are gleefully finding our labour costs "the cheapest in the developed world". And over three million, mostly Whites, rot on the

British dole.

In the short term, we can drive out these multinational bloodsuckers by putting their British subsidiaries under native ownership, sending their cheap coloured labour here back to their own countries, and preventing their cheap coloured labour abroad from undercutting our workers by introducing rigorous import controls.

But in the long term, if that is all we do, the multinationals will return. For multinational Capitalists were all national Capitalists once. Multinational corporations are an inevitable product of the Capitalist system, with its Stock Exchanges and its shareholdings, just as maggots are of a dungheap.

We must clean out the dungheap, dismantle Capitalism itself, and hand our industries over to those who work in them. And we must help other countries to do the same, so that in return for the raw materials we need, they get not multinational exploitation but the manufactured goods they need in fair exchange.

AFRICA NEEDS BIRTH CONTROL NOT BAND-AID

BAND-AID food shipments are making the African famine crisis worse, top scientists said recently. The scientists, leading ecologists from the University of British Columbia, pointed out the harsh reality that the root of the hunger problem in Ethiopia, the Sudan and other parts of Africa is not too little food. It is too many people. And food aid is only making this worse.

It was well-meaning but unthinking "aid" to Africa from White countries, the Canadian experts rightly say, which created the problem in the first place. For centuries, the population of areas like Ethiopia was kept down to a level the land could feed by natural factors like disease and infant mortality. The land stayed fertile and hunger was rare and soon ended.

Then White missionaries and charity workers, meaning well, arrived and started dishing out medicines and vaccines. But they didn't dish out birth control information or explain that the number of people had to be kept down to a level the land could feed. So the population exploded, trebling since 1950. Ten years ago, there were 27 million Ethiopians. Now there are 41 million, and there are more every day. Before the drought, the population of the African Sahel belt was increasing by 3% a year. Food production there was rising by only 1.5% a year. So the number of people was increasing twice as fast as the amount of food produced to feed them. Obviously, disaster was looming.

BARE SOIL

But the population explosion caused by Western "aid" was not only outstripping the food supply. It was destroying the land from which that food had to come. As the number of Africans rocketed, so did the number of their cattle. They ate all the grass, leaving the bare soil to blow away. The Blacks chopped down more and more trees to fuel

Only population control will end famine in Africa.

cooking fires, making soil erosion worse. The bare dusty earth replacing trees and grass over vast areas changed the weather patterns, so the rains stopped coming.

The population kept on rising, but without rain food output slumped — down 15% in 1984 alone. Result — famine.

So Western "aid" caused a Black population explosion. The Black population explosion outstripped their food supply and destroyed the ecology and weather patterns, causing the drought. The drought caused the famine. Fifty years of well-meaning "aid" turned prosperous peasant farmers tilling rich pastures into starving masses dying in a desert. And that's where Bob Geldof and Band-Aid came in.

For Band-Aid's "help" is all set to bring about further famine, misery and death in Africa. For until the real problem — the Black birth-rate is tackled, feeding starving Blacks today means creating more starving Blacks you cannot feed tomorrow. Each Black baby saved today means several Black babies in twenty years time. Who will feed them? Bob Geldof may be able to feed forty million hungry Ethiopians today. Can he feed a hundred million a generation from now? Three hundred

million a generation after that? Of course not.

BRUTAL REALITY

The brutal reality is that if Ethiopia — or anywhere else — can only feed twenty million people then in the long run only twenty million can live there. The rest must either go — or die. If that rest the land can't feed is twenty million, twenty million starve. If, thanks to kind Bob Geldof, it is forty million, forty million will starve. Band-Aid's "help" will have condemned an extra twenty million Black babies to a lingering death, doubling the death toll. Or worse, since the extra Blacks Band-Aid "saved" will further further devastate the land, so that it will feed even fewer people.

The fact, as agricultural and ecology experts well know, is that Africa needs birth control, not Band-Aid. Band-Aid is saving Black babies today only by condemning millions more Black babies to die tomorrow. But putting a fiver in the Band-Aid box to "Feed the World" makes nice liberals feel good, so they can look down their noses at the "nasty racist NF". But it is the nice liberals, not the nasty NF, who are going to kill millions of Black babies

FROM THE FRONT LINE

STOCKPORT RALLY

NF members make their way through the Red mob.

A LOW-KEY local NF rally in Stockport, near Manchester, turned into a major battle for the right to free speech at the end of the year. But despite being outnumbered ten-to-one National Front activists in the North West showed their mettle and held their meeting on the theme "Defend Free Speech — Scrap the Race Act."

Only two weeks before, the substantial Marxist rent-a-mob at nearby Manchester University had howled down and assaulted government minister David Waddington in spite of the efforts of the police, Special Branch and his own "minders" to protect him. Flushed with this easy victory, the Reds announced a major national mobilisation to "Kick the NF Out of Stockport".

But the Communist bullies found that NF activists are a more dangerous target to pick on than whining Tory ministers and their security men. The 500-strong Red mob attacked a group of just 15 NF members, who nevertheless fought their way through to the assembly point at Stockport station. Barricaded in the station under a hail of missiles, the NF group held off the screaming mob until the cavalry arrived in the shape of 15 members from Manchester. Faced with less advantageous odds and the fact that the unarmed NF men had confiscated a number of weapons, including hammers and an axe from their assailants, the Red students backed off.

At this stage the police felt it was safe to put in an appearance and escort fifty NF members to the

rally site.

The meeting had been scheduled for the Town Hall, but the council decided to keep the Front off council property by a last minute underhand ban by demanding hundreds of pounds insurance cover. Angered by this hypocrisy, dynamic Manchester NF Organiser Alex Malcolm announced that the NF would be meeting in the Town Hall car park — also council property — and that there was nothing the council dictators could do to stop it. It was at this stage that the rent-a-mob Marxists came to the aid of their Establishment "opponents" by announcing their intention to "Smash the NF off the streets."

In the end, thanks to the bravery of the NF members, this anti-British alliance failed. The unjust council decision won the local National Front excellent publicity and all the violent Reds got for their pains was the arrest of a dozen of their comrades and trips to the local hospital for several others. Some of these came from as far afield as Nottinghamshire, Hull and North London. The NF held a peaceful street meeting as planned, chaired by Alex Malcolm, with speeches by local officials and NF Deputy Chairman Nick Griffin.

FREE SPEECH: SIX VICTORIES ...

MEDWAY National Front organiser, Sidney Campbell (pictured left) was found not guilty of inciting racial hatred at Maidstone Crown Court recently.

Sid was dragged into the dock for issuing a leaflet entitled *Defend Local Traders Against Unfair Opposition*. The leaflet — issued in response to a planning application from an Asian shopkeeper to extend his store — commented on the way local authorities turned a blind eye to illegal and unhygienic Asian trading practices.

In his biased summing up, the Judge asked the jury to think of themselves as Asians and then consider whether they would find the leaflet insulting.

The jury ignored the Judge's advice and unanimously found Sid not guilty.

Stephen Wilkinson and Gordon Stridiron walk free from Newcastle Crown Court.

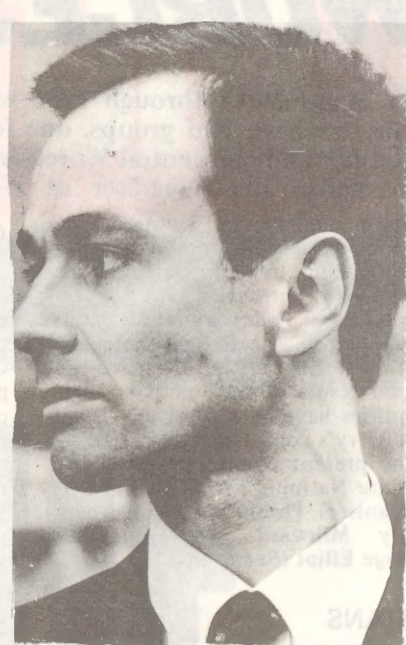

FOUR members of Newcastle National Front were cleared of Race Act charges when allegations that they had incited racial hatred were literally laughed out of court by members of the jury.

The four NF members — Gordon Stridiron, Philip Nanson, Stephen Wilkinson and Ronald Horton — had

been arrested for selling copies of *NF News*, *Nationalism Today* and *Bulldog* in Newcastle.

The prosecution alleged that the NF publications were likely to 'incite racial hatred'. To try and prove this point the prosecuting counsel read aloud to the court an article from *Nationalism Today*. The article — a humorous satire of community policing — brought roars of laughter from members of the jury, police officers and court officials. The only person not amused was the Judge, who struggled to regain order in court.

The jury unanimously found all four NF members not guilty.

THE National Front's former Chairman, Ian Anderson (pictured above), was cleared of inciting racial hatred at Snaresbrook Crown Court in December.

The charges related to 550 copies of the magazine *Bulldog* which were alleged to have been in his possession.

...AND ONE DEFEAT

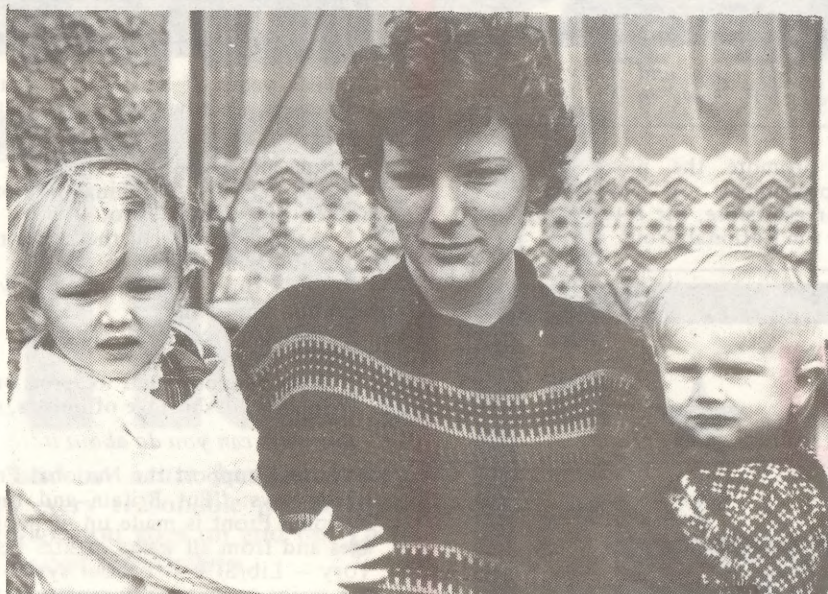

FREE SPEECH suffered a setback in December when Joe Pearce was jailed for 12 months.

Joe was found guilty at Snaresbrook Crown Court of breaking the repressive Race Relations Act. The charges related to several issues of the NF's former youth paper, *Bulldog*.

In *Bulldog*, Joe had detailed cases of immigrant crime. The prosecution did not dispute the truth of what Joe had written — they just claimed that such comment on the outcome of successive governments' immigration policies would be likely to 'incite racial hatred'.

Not only was the sentence passed

Gina Pearce with 3 year-old Lorna, and 1 year-old Joe.

on Joe Pearce a savage attack on free speech, it was also a personal tragedy for Joe's wife and his two young children.

Joe's wife Gina, told *NF News*: "I think it is an outrage that Joe was jailed. You read in the papers of cases where muggers, rapists and even murderers walk free from court with fines and suspended sentences — yet Joe has been locked away for a year just for voicing opposition to coloured immigration.

"Our daughter, Lorna, is particularly

upset. She keeps on asking where her Daddy is. I have had to tell her that he is away making toys for Father Christmas.

"I have visited Joe in prison and despite the circumstances he is in good spirits. The hundreds of letters and cards that people have sent him have really helped to raise his morale".

Please send letters of support to: Joe Pearce, HMP Stanford Hill, Church Road, Eastchurch, Sheerness, Kent ME12 4AA.

Rough Justice

IAN STUART, NF Central London Branch organiser and vocalist with the racist rock band *Skrewdriver*, received a 12 months prison sentence in December for defending himself from a racial attack.

Ian (pictured right) and a group of NF members were attacked at Kings Cross tube station by an immigrant gang. While Ian was unjustly convicted of assault, none of the blacks — who started the trouble — were even charged.

Despite the fact that Ian had no previous convictions, he received a savage 12 months jail sentence. Another NF member, Dessie Clark, received a 9 month sentence.

Please send letters of support to these two NF activists. Write to: Ian Stuart Donaldson, HMP Wayland, Near Griston, Thetford, Norfolk and Dessie Clark, YCC Rochester, Kent.

BACK IN ACTION!

WITHIN 48 hours of being released from Pentonville Prison, National Front Chairman, Martin Wingfield, had delivered to his local MP, Terence Higgins, a comprehensive dossier revealing the shocking extent of drug abuse in that prison.

The dossier exposes the method by which drugs are brought into the prison as well as the financial claims of one of the leading pushers. Cases of where cannabis was openly smoked in broad daylight are detailed together with the health risks run by inmates to support their habit.

In the report Mr. Wingfield notes, "It took me a week to realise that nearly half the inmates in Pentonville were either smoking cannabis every evening, most evenings or at weekends. Dope was the life-blood of the prison, rapidly replacing tobacco as the most saleable commodity".

Martin Wingfield has instructed his MP to put the facts contained in the report before the Home Office, and has made it known that he requires answers to a number of questions amongst which is: "Are the prison authorities turning a blind eye to the use of soft-drugs in prison in their quest for a peaceful life as Britain's prisons become more and more congested with a growing number of people from different cultures with different conventions to those of our own?"

The Front's Chairman told *NF News* that he was none the worse after serving his 3 month sentence for alleged offences under the Race Relations Act and was eager to get back into political life.

Martin Wingfield with some of the 600 letters and cards he received during his stay in Pentonville Prison.

"My ordeal was made so much easier to bear because of the overwhelming support I received from both inside and outside the prison. Many prison officers expressed sympathy at my predicament and made it known to me that in no way did they regard me as a 'criminal'," he said.

Martin has received over 600 letters and cards of support and it was this show of solidarity, standing by his decision not to pay the original fine of £1,500 ordered by Lewes Crown Court, that encouraged him through the inevitable depressing spells of his internment.

Through *NF News* Martin would like to thank all those people who wrote to him, and where possible he will be replying personally.

GETTING THE NF MESSAGE ACROSS

Kent NF Regional Organiser, Paul Johnson, reports on their successful method of winning publicity for the 'Free Martin Wingfield' campaign. Other units of the National Front should adopt this tactic to publicise the Joe Pearce case.

ONE of the easiest, and most successful methods of gaining publicity for the 'Free Martin Wingfield' campaign in Kent has been the "hijacking" of the local radio station's evening phone-in programme.

We instructed a dozen of our activists to telephone the show on a specified date, between 8.00p.m. and 10.00p.m., with the object of giving Martin's jail sentence as much 'on the air' publicity as was possible.

The chat show started at 7.30 p.m. which meant that, as our first caller was not due to ring the show before 8.00p.m., the D.J. (Rod Lucas) had time to start receiving calls on the air without suspecting anything out of the ordinary was about to happen.

At 8.00p.m. the Kent Regional Organiser telephoned the show, informing the receptionist that he wished to make a dedication on the air. His call was immediately transferred to the studio and, after a few seconds, he was put on the air. A simple — non political dedication — was then made "To my good friend and colleague Martin Wingfield now serving three months in Pentonville for telling the truth." A few minutes later another caller was on the air, this time under the excuse of setting a quiz question.

The question was "What was the truth Martin Wingfield had been jailed for telling?" The scene had now been set ...

Another call followed shortly, this time from someone wishing to answer a quiz question. "Martin Wingfield was jailed for saying ...". The DJ, not realising what he was letting himself in for asked the caller if he too was an NF member like M.W. There then followed a five minute interview with the caller on a variety of NF policies.

By this time the public had started to join in the debate. Two callers complained that "National Front thugs were being given access to the airwaves", whilst another caller complained that "White bus conductors were lazy, whilst black ones were not". Yet another caller rang the show to complain of the increase in muggings and riots by the ethnic community.

By this time the DJ had obviously become concerned at what was happening to his normally very liberal show, and the switchboard were desperately trying not to let any more callers on the air talking about the NF or Martin Wingfield.

A few minutes later Rod Lucas introduced a young lady to listeners who, he explained, wanted to talk about the cinema closures in Kent. As soon as she was on the air

the young lady began ... "Martin Wingfield is a political prisoner! He is in jail for telling the truth. ... The Blacks are taking over our Country!" She was then given nearly ten minutes on the air to explain to listeners why she joined the NF and what policies she most agreed with.

Two members of the public were next on the air. "Why has the National Front hijacked your show Rod?" asked one, whilst the second moaned "We got rich on the backs of the blacks — who can blame them for burning our cities?"

The next caller, whom we were told wanted to sing a song on the air, immediately introduced himself as the NF Regional Organiser and was given another ten minutes on the air to discuss NF policies.

It was now 10.30p.m. From a three hour show — about 1½ hours of chat between records — we had so far taken up over ¾'s of an hour. The DJ then informed listeners that the switchboard was jam-packed with callers, but they were now closing down the chat show, and would not be taking any more callers over the air.

Victory was ours! Nearly 60,000 listeners had been subjected to another phase in Kent's campaign. Who would be next?

FROM THE FRONT LINE

FORGING AHEAD IN WORCESTERSHIRE

"BY HALF WAY through 1986 we hope either to reach Branch status, or have two groups, one for Kidderminster, and one for Redditch and the central Worcestershire area." That's the aim of Jim Barry, the Organiser of Worcestershire National Front.

Based mainly in Kidderminster, Worcestershire NF are very active. They hold regular street paper sales of *National Front News*, *Nationalism Today*, *New Dawn* and *New Nation*. Leafletting, stickering and posterage are also carried out.

As a result of their activity, many enquiries have been received - hence Jim Barry's confidence for the future.

The present committee of Worcestershire National Front is: Jim Barry (Organiser), Phillip Barry (Chairman), Andy Millward (Treasurer), and George Elliot (Secretary).

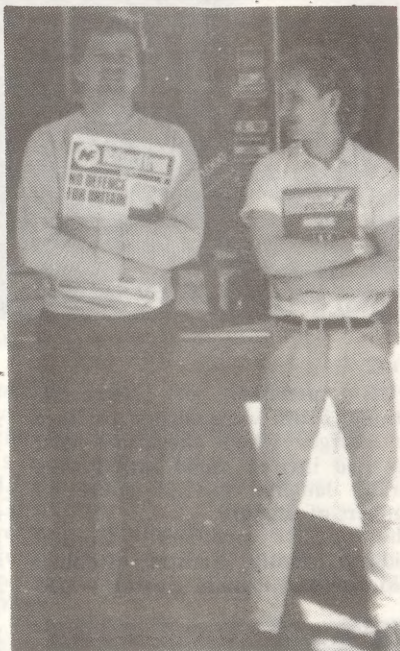

CAMPAIGN

Worcestershire NF have also received a fair amount of local publicity. Last year they opposed a CND march in Kidderminster, and won a lot of support for the NF's policy of armed neutrality. A campaign to leaflet local schools also won a lot of publicity. But it was their efforts during the NF's unemployment campaign that produced results. The local papers were full of news about the NF's views on unemployment.

SUCCESS

1985 was a good year for Worcestershire National Front. Jim Barry attributes its success mostly to Phillip Barry and Andy Millward, but Steve Brickles, Stephanie Whitehouse and George Elliot have all helped considerably.

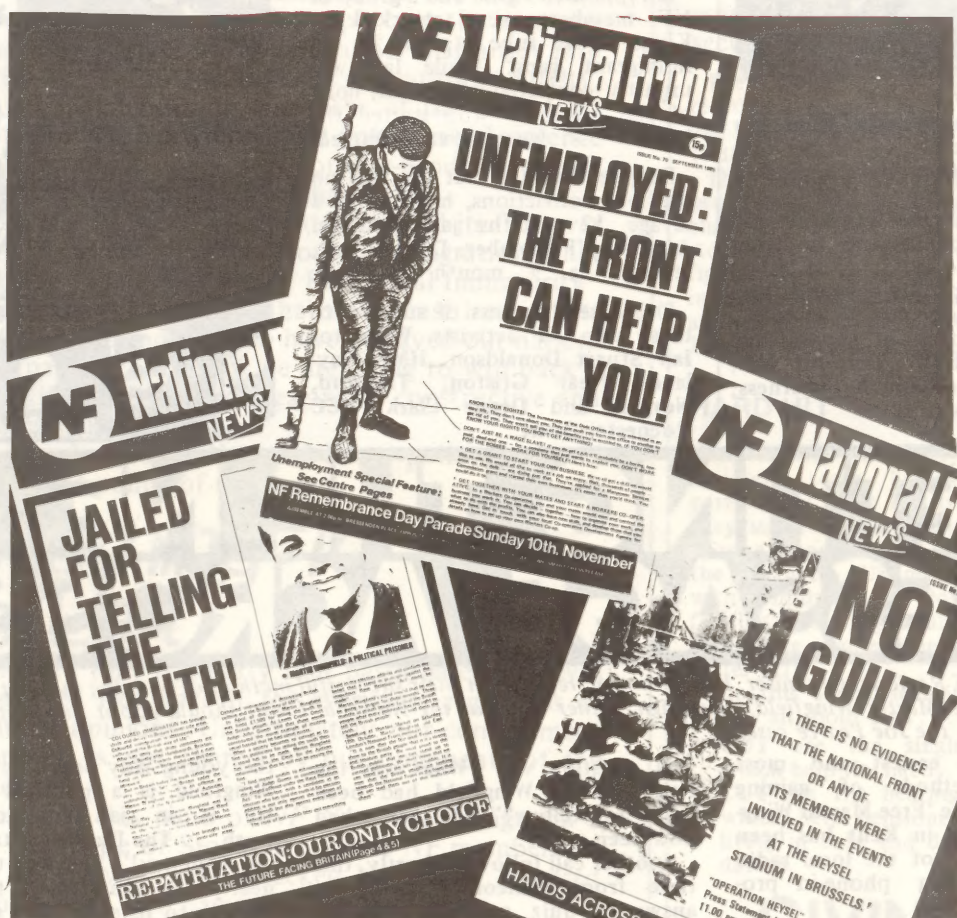

But 1986 is already looking better. Worcestershire NF are working hard at promoting the NF's current anti-IRA campaign, and also have plans

Jim Barry (left) and Andy Millward selling NF News in Kidderminster.

to promote the news about the imprisonment of Joe Pearce. In Worcestershire, the future looks rosy for the National Front.

NAME

Address

Do you care about Britain?

AFTER years of betrayal by Tory, Labour, SDP and Liberal politicians, we now have in Britain:

- * Five million coloured immigrants, with a promise of tens of thousands more.
- * Murders and bombings not only in Northern Ireland, but also on the mainland too.
- * A shocking rise in the crime rate, particularly in muggings, rapes and armed robbery.
- * Over three million unemployed, with no prospect of the situation improving.
- * Rising prices and crippling taxes, thanks largely to the Common Market swindle.
- * Foreign troops and weapons on British soil.
- * A chronic shortage of houses, schools and hospitals.

But what can you do about it?

You can support the National Front, Britain's patriotic party, which says: "Put Britain and the British people first!" The National Front is made up of people like YOU - people of all ages and from all walks of life. People who got fed up with the Tory - Lib/SDP - Labour system. People who realised that all the major parties really represent the same thing: they all want more immigrants, they're all in favour of the Common Market, and they're all in favour of pussy-footing in Northern Ireland. The National Front is the only party to actually say what the British people think. The National Front says:

* BRITAIN FOR THE BRITISH

Britons didn't fight two world wars to see their country turned into a multi-racial slum. Stop immigration now and return all coloured immigrants and their dependants already here by a policy of phased repatriation, in a humane and orderly fashion.

* GET BRITAIN OUT OF THE EEC

The Common Market has brought us rocketing food prices, iniquitous taxes and unemployment. The traitors at Westminster have sold Britain's sovereignty to the faceless bureaucrats in Brussels. Get Britain out of this Euro-swindle now.

* ARMED NEUTRALITY NOW

Remove all American servicemen and their weapons from British soil. Establish a truly independent British nuclear deterrent.

* GET TOUGH WITH CRIMINAL THUGS

Stamp out thuggery and hooliganism. Clamp down on muggers, football hooligans and drug-pushers. Bring back capital punishment. Restore law and order to our city streets.

* FIGHT UNEMPLOYMENT

Keep out foreign manufactured goods we can make ourselves. Halt the export of investment capital. Stop the multinational takeover of British Industry. Encourage workers' co-operatives and co-ownership schemes.

* GIVE MORE HELP WHERE NEEDED

Stop giving millions away in 'overseas aid' to ungrateful black dictatorships. Spend it on our own needy. We have a duty to look after the old, the young, the sick and the disabled.

That's National Front policy. You know it can work. It's a policy that can make Britain a fit and decent land to live in. It's a policy the crooked politicians fear. Do you care about YOUR country, YOUR home, YOUR children's future?

DO YOU CARE ENOUGH TO SUPPORT THE NATIONAL FRONT?

To: The Secretary, P.O. Box 41, Norwich NR3 2AH.
